

ENVIRONMENTAL POLICY

Duopharma Manufacturing (Bangi) Sdn. Bhd., a pharmaceutical manufacturer, is committed to environmental protection by utilizing sound environmental practices in all its activities and products.

To minimize environmental impacts concerning our activities, products and services, we shall:

- Maintain an Environmental Management System that comply with relevant local and national legislations, regulations and requirements.
- Commit to continual improvement and prevention of pollution and minimisation of resource consumption through environmental programs, audits and inspections, corrective actions and management reviews.
- Set objectives and targets to reduce significant environmental impacts and review them for effectiveness.
- Raise awareness among our employees on environmental issues through training and communication to enable them carry their task in an environmentally responsible manner.

Leonard Ariff Abdul Shatar
